Operator-technologist who makes complex work visible and turns emerging technology into adopted operating mechanisms. Brings direct leadership across AI-enabled workflows, technical product environments, high-reliability programs, field operations, customer support, and cross-functional execution. Prepared to lead a Decision Advantage portfolio while remaining close to backlogs, users, evidence, and product-team craft.

SELECTED EXPERIENCE

Director of Operations

Vape-Jet

2025-Present

- Leads AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connects factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Works directly in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

Founder / AI and Automation Advisor

DudeWorth

2017-Present

- Develops AI-readiness and opportunity frameworks that assess value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advises on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis, and workflow design.

Director of Operations and Engineering Management

Compunetics

2000-2013

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls.
- Collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD; published industry articles, delivered technical talks, and participated in the HyperTransport Consortium.

ROLE-ALIGNED CAPABILITIES

Portfolio and roadmap decision systems	
Product operating model and backlog leadership	1 / 2
Agentic AI and human-in-the-loop workflow design	

ADDITIONAL LEADERSHIP EXPERIENCE

Operations Management / Site Leader2014-2018

Amazon

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward operating environment supporting approximately five million second-day orders annually.
- Served on the Amazon Prime Now launch team with Whole Foods.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms.
- Applied Lean and Gemba practices across safety, quality, throughput, customer experience, and team engagement; contributed to Prime Air research and Amazon Flex geolocation concepts.

Chief Pilot, Autonomous Systems and Aerial Data Operations2018-2022

ZeusVu

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence.
- Designed medical drone delivery and chain-of-custody concepts connecting technology, risk, stakeholders, and governed execution.

Regional Director2021-2023

Cardinal Building Products

- Built the company's first remote regional operation.
- Modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.
- Advanced AI-enhanced transportation-management and route-planning concepts.

Chairman of the Board2014-2017

Enviro Social Capital

- Co-founded and led a public-private impact initiative focused on sustainable infrastructure, green finance, and civic transformation.
- Helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh sewage and green-infrastructure improvement.

CMPT and EDS Pittsburgh Chapter Chair2012-2016

IEEE

- Led regional technology programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.

EDUCATION

Bachelor of Science

University of Pittsburgh

Academic grounding includes materials science, physical chemistry, and biology-related studies.
